The Mysore Assigned Tract shoulders a burden of about Rs.700/- per annum on scholarships granted to Defective (Blind) persons. The expenditure cannot be said to be heavy but in view of the very serious endeavours being made to reduce expenditure in the Assigned Tract it seems desirable to curtail our commitments in this direction also.

We have up to the present sanctioned four scholarships and the sanctions are renewed annually as they fall due. It would perhaps be equitable if we sanctions the scholarships for 1 year more from date of expiry of present sanctions and then discontinue the grant of the scholarships.

We must continue the scholarships for completion of courses which have already been started. As long

as a child is doing well, it would be wrong to discontinue a scholarship before the course of instruction is completed. What we must watch carefully is the grant of first scholarships and it may be necessary to economise by reducing the total number of scholarships as the present holders finish their course of instruction. This point should be noted for consideration on the retrenchment file under "Education". The draft may issue as amended.

Scholarships.

" The expenditure has decreased from Rs 21,000 in 1924-25 to Rs 12,200 in 1936-37 i.e., by Rs 8,800. The Financial Adviser has suggested a reduction of Rs 696 under Scholarships. The Inspector considers that the scale on which Scholarships are awarded in Bangalore, is very liberal when compared with the scales in Madras. The Secretary has recently ordered as follows:- " We must continue scholarships for completion of courses which have already been started. As long as a child is doing well it would be wrong to discontinue a scholarship before the course of instruction is completed. What we must watch carefully is the grant of fresh scholarships and it may be necessary to economise by reducing the total number of scholarships as the present holders finish their courses of instruction." The Inspector may be informed on the above lines.

(3) As regards Scholarships, I must make it clear that my remarks which are quoted in para 21 of the notes were made with special reference to a particular class of Scholarships- (I think the Scholarships granted to poor defective children to enable them to undergo a course of specialised instruction at the School for Blind and Dumb children at Mysore) and they applied rather to total abolition of a Scholarship than to a reduction of its amount. I did not intend that my remarks should necessarily be applied indiscriminately to all kinds of Scholarships. The various grades and types of Scholarships must, I think, be examined on their merits ; and where there is good ground for reduction of the amount of a scholarship (as there will doubtless be in many cases) there seems to be no reason why the reduction should not be made at once, or at any rate from the commencement of the next academic term or year."
